6.  LIAISON Pat Johnson, in the Memphis district office of Representative Harold Ford (D., Tenn.), called wanting to know if a certain organization was on the "subversive list." I suggested she contact the Department of Justice.

8.  LIAISON Lewis Hunter, GAO, called requesting a meeting with a representative from OLC and the Office of Security to discuss what clearances they should have. He understands there are some kinds of clearances they may not want and I explained that there were some kinds of clearances which they could probably not get. He still pressed for a meeting and I said I would look into it and get back to him.

9.  FBIS Met with Bill Hoffman, on the staff of Senator Mike Gravel (D., Alaska), regarding Senator Gravel's subscription to the FBIS Daily Reports and the fact that he had requested that they be sent to a private address. I gave Hoffman a general briefing on FBIS publications and their differences and told him that gratis subscriptions were given to Government officials only and that we would have to send Senator Gravel's subscription, if he still wanted it, to his official address rather than a private address. I also gave Hoffman some additional background in order that he understand the full extent of the problems involved in this particular subscription. He agreed that the subscription should be sent to Senator Gravel's Dirksen Senate Office Building and also said he would mention some of the additional background to Senator Gravel.
